MASTON ICE CRYSTAL SPRAY creates a magical winter wonderland in your home. Ideal for various smooth glass or metal surfaces, i.e. windows, mirrors or lanterns.

INSTRUCTIONS: Apply on cleaned surface one thin layer from a distance of 15-35cm. At first, the spray forms a transparent liquid film on the surface. After approx. 5-15 min. drying time at room temperature you can see the ice crystals forming.

Can be easily removed with a damp cloth and a bit of soap or glass cleaner. The Ice Crystal Effect can be made permanent if over coated with Maston ONE Clear Coat.

BINDER: Waterbased
