

## TEMPORARY MARKING PAINT

MASTON TEMPORARY MARKING PAINT has been designed with nature and ease of use in mind. Temporary marking paint has multiple uses and is ideal for marking the lines of a football field on the lawn or marking trees to be felled or stones to be moved. Easy to wash off with water. Environmentally friendly. Does not smell and dries quickly. Suitable for asphalt, lawn, sand, metal, glass, snow, ice, etc. Of porous materials, the product can be hard to wash off.

Can be used with or without 1-wheel marking rod or painting trolley. Use of 1-wheel marking rod (option 2. art nr. 702020) or painting trolleys (option 3. art nr. 702102) makes it easier to paint straight lines of 5 to 10 cm width.

INSTRUCTIONS: If using painting trolley: place the can on trolley upside down and adjust the height of the can to regulate the width of the stripe. When you start painting, move the trolley and push the trigger down. Operating temperature +4°C - +32°C. Clean the nozzle after use. If the nozzle blocks while painting, clean it and start again

### MATERIAL

### HARDNESS

**BINDER:** Waterbased

**DEGREE OF GLOSS (DIN 67530 60 °):**

matt 0-25 gloss units

**STORAGE STABILITY:** 60 months

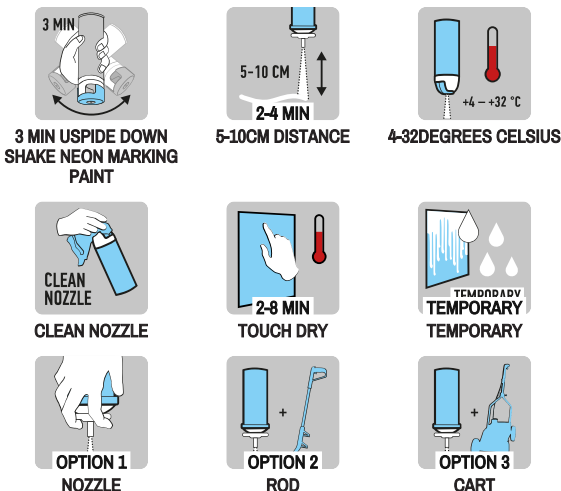

**SIZE:** 500ml

**SALES QTY:**

500ml: 6 pcs

**RECOAT:**

always
