

SPRAYPAINT WRINKLE

COVERAGE

HEAT RESISTANT

STRONG BOND

QUICK DRYING

Maston Wrinkle creates a deep and rich texture and is ideal for adding a touch of personal styling to almost any metal surface. Made of genuine acrylic binders and high quality color pastes. Extremely high coverage. The coating is very hard and gives an excellent protection. Resist also color fading, grease, degreasers, rust chipping and tracking. Temperature resistant to +120°C. Examples of use: skirts, bumpers, tuning, etc. Plastic surfaces must first be primed with Maston plastic primer.

Instructions for use: The longer spraying distance, the more wrinkle effect. Start spraying around 40cm from object and move closer if necessary. Spray thin layers and let dry for about 5 minutes before spraying a new layer. Too thick and wet paint layers will cause limited wrinkle effect.

BINDER: Acryl

DEGREE OF GLOSS (DIN 67530 60 °):
matt 0-25 gloss units

HEAT RESISTANCE: 120°C

STORAGE STABILITY: 60 months

SIZE: 400ml
